

**DIRECTIVE
Land Registry**

SECTION: PID Databank

NUMBER: 3001-001

**SUBJECT: PID Databank Applications -
Single PID - Multiple descriptions.**

PURPOSE

There are situations where multiple descriptions are reflected on the SNB mapping as a single PID. The directive below outlines the procedure to follow to resolve these situations in the processing of the PID Databank Application.

REFERENCE N/A

DIRECTIVE

PID Databank Applications submitted for a single PID, containing descriptions that describe multiple "Freehold Parcels" as defined in Mapping Standard 400-10 will be rejected.

Subscribers have to submit separate applications for each of the freehold parcels.

To obtain an exemption under Section 10.1 (4) of the Land Titles Act to submit a single application for multiple descriptions, the exemption request must be specified in the PID Databank Applications comment box when they are submitted"

NOTE:

Each parcel description in the application, comprising the single PID, is required to meet the prescribed standards.
